Attention Medical Personnel This Changes Everything

While serving as a missionary in Central America I observed first-hand the power and effectiveness of medical missions. However, healthcare education in the U.S. is expensive and many students finance it by borrowing heavily. This creates a problem for many prospective healthcare missionaries who must work to pay off their educational loans before going to the mission field. In doing this, they are delayed in responding to God's call, and many never make it to the field at all.*

MedSend solves this problem by awarding grants that make the monthly educational loan payments for healthcare missionaries while they serve, thus allowing them to answer God's call and get to the mission field more quickly.

ELIGIBILITY

To be eligible for a MedSend grant, you must be a healthcare professional who has completed your training and you must be headed for career, full-time healthcare missions service under the authority of a sending agency that is a MedSend Associate.

Commission To Every Nation is a MedSend Associate.

WHO QUALIFIES

Healthcare professionals who are automatically eligible to apply for MedSend grants are: physicians (MD and DO), dentists, nurses with BSN degrees and two years of clinical experience, veterinarians and physician assistants. Other healthcare professionals are considered on a case-by-case basis, depending largely on the need on the mission field. Grants have been approved for pharmacists, mental health professionals, optometrists, physical therapists, public health professionals (MPH), and others. They do not currently accept applications from chiropractors.

WHAT ABOUT MEDICAL MISSIONARIES SERVING IN THE US?

Yes, help is available for you, too. See: medsend.org/get-involved/apply/faqs/

WHAT NEXT?

To follow your dream and calling into medical missions, check out the MedSend Website and then apply at www.CTEN.org.

Ite, inflammate omnia;

Rick
